

Tugas DOM

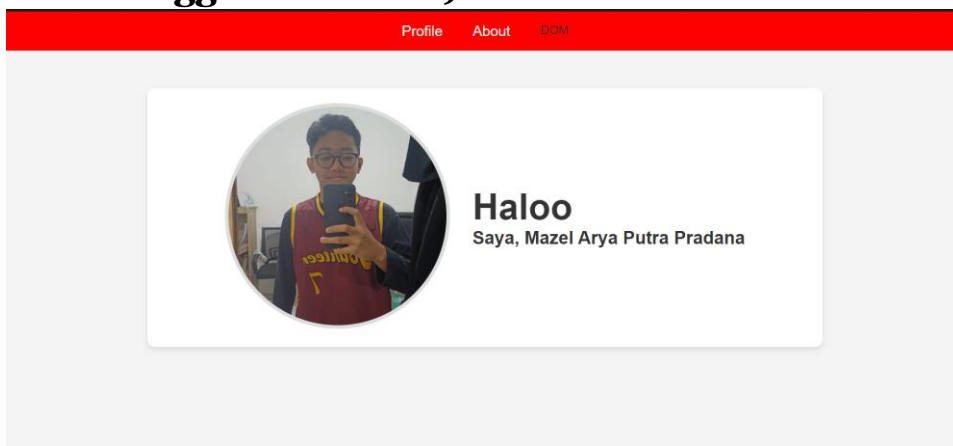

Nama : Mazel Arya Putra Pradana / 06

Kelas : 11 RPL 2

1. Sebelum menerapkan DOM

2. Sesudah menerapkan DOM (Menambah, menghapus, dan mengganti elemen)

Code :

```
<script>
  siswa.remove();

  const navbar = document.getElementById("navbar");
  const nav1 = document.createElement("li");
  nav1.textContent = "DOM";
  navbar.appendChild(nav1);

  const perkenalan = document.getElementById("perkenalan")
  perkenalan.textContent = "Haloo"
</script>
```
